## Wedding News

From January through to March, we made significant enhancements to our beautiful venue. We're thrilled to now offer an incredible outdoor ceremony space and a stunning reception garden. The garden features an outdoor bar and a covered log burner complete with comfortable outdoor furniture.

Inside, our wedding barns have also been improved with a newly renovated bar area and a spacious Disco barn/Atrium. Additionally, we've upgraded our guest parking area and created a dedicated suppliers' car park and entrance to the wedding barns, which has greatly improved the ease of access/setup.

We're so excited about these new additions and believe they will further enhance the experience for all of your guests and make the flow of your wedding day even more seamless than before.

With wedding season in full swing, it's been wonderful to see our 2025 couples and their guests already enjoying the new outdoor spaces, which also provide even more fantastic photo opportunities!

If you didn't make it to our booked couples open evening on 16th June and have not yet seen the venue updates, please look out for another booked couples open day later in the year.

## Top Tips: For Wedding Planning

### *Let's talk about drinks...*

Vogue has put an emphasis on great drinks and quick access to liquor as priorities for 2025 wedding trends and we couldn't agree more.

We've created a new flow to the inside of the Tavern, making it easier to access the bar from all sides of the wedding barns and allowing us to serve you quicker from more angles of the bar top. This is in addition to our outdoor bar in the new reception garden, meaning guests can easily have a drink on arrival whilst still enjoying the outside, the weather and the excitement as other guests arrive.

Vogue also mentioned 'pre-batched cocktails & mocktails are gaining traction to ensure drinks flow quickly'. This is a great way to offer your guests something extra on your wedding day and we can tailor these to suit your preference. This can run alongside our usual freshly mixed cocktail options that guests can purchase at the bar.

Adding additional drinks to your packages, such as a second reception drink or shots for after the first dance, are all great ways for your guests to enjoy drinks throughout the day without having to leave the party and head to the bar.

The increasingly popular champagne tower is another option to elevate your drinks package, it can provide stunning photo opportunities and a fun way to kick off your evening reception.

We'd love to work with you to create the perfect drinks package for you and your guests, speak with your coordinator about all the options available and if you have something specific in mind.
